# Cahier des charges (synthèse)

- Créer une chambre supplémentaire (passer de 2 à 3 chambres).
- Créer des placards dans chaque pièce.
- Faire mieux bénéficier l'appartement de sa luminosité.
- Créer une véritable suite parentale, en recréant un plus grand espace de douche notamment.
- Réutiliser autant que faire se pouvait les très belles boiseries de l'appartement (portes d'origine, bibliothèques recouvrant entièrement les murs du salon).
- Faire une cuisine dînatoire.
- Créer deux espaces pour le salon et la salle à manger.
- Magnifier le côté très classique de l'appartement (3m10 de hauteur sous plafond, sol en marbre dans l'entrée, portes, …) tout en le modernisant.
- Composer autour d'une entrée dont le sol est en marbre bleuté.
